

The majority of people who use tobacco
want to quit!

Quitting is hard, but you can help your patient or client **make it happen.**

In less than 3 minutes, you can make a difference.

Follow the 5As:

Ask your patient or client if he/she uses tobacco.

Advise your patient or client to quit.

Assess your patient or client's readiness to quit.

Assist your patient or client to quit.

Arrange for follow-up.
